

Notice of the Fifth Anatomical Drawing Contest of North Sichuan Medical College

In order to learn more about anatomy, and consolidate the basic knowledge of medicine, the fifth anatomy drawing contest of medical students will be held in our college.

Participants

All the medical students (including international students) in our college, the winner of the special prize in the previous anatomy drawing contest not allowed participate.

Work Requirements

- The main content of the work is human anatomy, every participant is allowed to hand in only one work.
- The works include copy drawing and creative drawing. The copying of physical specimens is encouraged, and you need to illustrate the information in the works.
- There is no limitation on creation techniques except electronic paintings.
- Do not use the ordinary printing paper, the size of drawing paper should be **260mm×370mm**.
- The work is completed by an individual rather than a group, and it must be created by yourself and unpublished yet. Meanwhile, the religion or politics can not be involved.
- No contestant information or work information can appear in the works.
- Works need to be scanned into electronic versions. Scanning mode requires using scanner or mobile phone scan APP. **(Photograph is invalid)** Scanning effect needs to be clear. Scanned electronic version works are used for preliminary evaluation. Scanned drawings are specified in **PNG or TIFF format**.
- The work information table only includes the work number (completed by the Organizing Committee), the name of the work (completed by the contestant) and the introduction of the work (the author completes, 200 words is suitable), which is used for the reference of expert evaluation. The contestant information cannot appear on the work information table.

- The paper works will not be returned, please make a backup by yourself.

Basic Procedures and Timing of the Contest

- May 1st, 2021-October 19th, 2021, contestants prepare for their works
